Fluence Clinic

FOR GPS & PRACTICE TEAMS

Specialist assessments for adults.
Personalised care & guidance.

Private online ADHD and autism assessments for adults, with clear management plans, follow-up care and medication support where clinically appropriate.

Why choose Fluence Clinic?

Timely access for patients

Appointments typically available within 1–4 weeks once pre-booking steps completed.

Useful clinical communication

A comprehensive report and management plan within 10 days, shared with GP with patient consent.

Care beyond diagnosis

Medication initiation, titration and ongoing reviews managed by Fluence where appropriate.

Private Fees

ADHD assessment	£750
Autism assessment	£875
Combined assessment	£1,500

Includes assessment, written report, management plan and initial prescription if appropriate.

Medication review	£250

Includes a prescription, if appropriate.

Private prescription only	£75

If appropriate and patient is stable.

Annual review	£300

Includes a prescription, if appropriate.

Shared care is optional

Signposting a patient does not commit your practice to prescribing. Shared care is considered after stabilisation and requires agreement.

If shared care is not agreed, patients can continue privately with Fluence, subject to clinical suitability, required reviews and fees.

Referrals & enquiries

Patients can self-refer to Fluence Clinic. They can start by scaning the QR code or going to www.fluenceclinic.co.uk/self-referral/
